

# NewArt SCHOOL

NEWTON CONOVER AUDITORIUM

Dear Parents/Guardians/Students,

The NewArt School of Music is delighted to offer you the opportunity to participate in private music instruction. The NewArt School of Music offers private lessons from professionals with extensive training in music in their field of expertise. Instructors create individualized plans to assure the achievement and success of each student. We view our private music program as an important component of development.

Private music instruction starts with the basics of reading music and learning chord and scale patterns through fun beginning songs that are familiar to the student. We teach the standard music lesson repertoire and techniques, moving step-by-step through skill building music. Instructors choose motivating supplementary materials for each student that introduce many styles including pop, classical, jazz and more. Students who move to the intermediate and advanced levels increase their sight-reading capabilities and can work on improvisation and composition.

Enclosed you will find information regarding policies and procedures. Please read all of the information in the packet carefully. Sign and return all forms to the NCA office.

The NewArt School of Music is honored to have you as a student. We look forward to working with you to develop your musical talents and abilities.

Sincerely,

Ingrid Keller  
Development Coordinator  
NewArt School of Music
